# MISSION STATEMENT

Our mission at Calvin Coolidge Middle School (CCMS) is to create a safe, nurturing environment for learning. This environment will provide students from diverse backgrounds with a variety of learning styles. It will allow students to reach their potential, physically, socially, emotionally, and intellectually.

All students will be afforded the opportunity to develop their unique talents through authentic life experiences and curriculum, which challenge them to think critically and creatively. As a result of these efforts, our students will acquire the skills necessary to be lifelong learners and pursue appropriate career pathways.

## CCMS MIDDLE SCHOOL PROGRAM

Calvin Coolidge Middle School serves students in grades five through eight. Each grade is departmentalized and each subject is taught by a teacher trained in that discipline. Teachers work with one another to develop basic but exciting educational programs which utilize imaginative grouping techniques, innovative teaching methods, effective teaching materials, up-to-date educational technology and instructional skills that allow and encourage each student to be successful.

CCMS has a science laboratory, computer laboratory, and library. A complete music program, including band, orchestra, graphic arts, and chorus are offered in at CCMS.

## CCMS TECHNOLOGY

All of our classrooms are equipped with the latest technology including the use of SmartBoards, document readers, and Internet-ready student computers! Students have access to three computer labs, Stream and Ipad!
