PEORIA ADULT TRANSITION PROGRAM

We are a Post-Secondary Program offering functional academics and employment training to students between the ages of 18-21.

Beliefs:
* We understand that learning takes place in communities, schools, homes, and other social institutions and it requires a commitment to success by students, parents, faculty, and community,
* We support activity-oriented hands-on learning experiences that connect to real world applications with the hope that adults will exit the program voluntering or gainfully employed, as they are able.
* We hold that everyone has the capacity to learn, and true learning is a result of community caring, partnering, and networking.
* We provide a safe and nurturing environment in our program which fosters positive attitudes and creates collaborative classrooms to allow learners to reach their full potential.
