Hello parents and guardians!

**Peoria Public Schools is going to use SKOOLER as a new communication portal.** Skyward connects to both MS Teams and Skooler, which allows it to be updated every night. There are many different tools available within Skooler! Messages will be the tool used to communicate with parents and families.

Students will also be able to use Skooler to access all Office 365 tools as well as 3rd Party apps such as Acellus, LightSail, TCi Science, Lexia, etc.

Please follow these steps to set up your account!

You will need the email that you have registered with the school. You can then generate your own code/password, and use the Skooler Parent Dashboard or Mobile app.

1. Visit skooler.com and click ‘login’

![Login page](skooler.com)

2. Select HOME (for Parents) and ‘Login’

![Home page](skooler.com)

3. Search for the school name. For example, Rolling Acres.
4. Click on “Take me to the registration”
5. Enter the email you have registered with Peoria Public Schools.

Once you have registered, I will have a better idea of how we can connect through the Skooler portal! Thank you!
