Homemade Slime

Ingredients:
- Water
- White glue
- Borax
- A few drops of food coloring - optional

Instructions:
1. In a medium bowl, mix 1/2 cup glue and 1/2 cup water. Add food coloring if you want colored slime.
2. In a small bowl, mix 1 teaspoon borax with 3 cup water. Stir until the borax is dissolved.
3. Add the glue mixture to the borax solution, stirring slowly. When the slime begins to form, you will need to knead it by hand until it gets less sticky.

(Churning this mixture works by the electrostatic force)
