

General School Administration

Research and Evaluation

The Peoria Public Schools enthusiastically support educational research and evaluation projects conducted by staff members, in private agencies, colleges and universities, and other outside organizations. However, some limitations must be placed on the quantity and quality of projects undertaken. Therefore, all research and evaluation projects conducted in District #150 must receive approval from the Superintendent and/or designee prior to implementation.

The Superintendent and/or designee should determine that any research and evaluation projects monitor the confidentiality of students and that when appropriate parental consent to participate is obtained.
