**Students**

**Administrative Procedure - Checklist for District Supply of Undesignated Asthma Medication, Epinephrine Injectors, Opioid Antagonists, and/or Glucagon**

The District maintains and administers the undesignated medication(s) identified below in accordance with State and federal law (check all that apply):

- [ ] Undesignated Glucagon (UG)
- [ ] Undesignated Asthma Medication (UAM)
- [ ] Undesignated Epinephrine Injector(s) (UEIs)
- [ ] Undesignated Opioid Antagonist(s) (UOAs)

- [ ] The Superintendent, school nurse, and/or other necessary school officials should consult the Board Attorney to develop a plan to implement 105 ILCS 5/22-30 and 105 ILCS 145/27, added by P.A. 101-428.
- [ ] Obtain a prescription to maintain a supply of one or all of the following: undesignated asthma medication (UAM), epinephrine injector(s) (UEIs), opioid antagonist(s) (UOAs), and/or undesignated glucagon (UG) in the District’s name pursuant to 105 ILCS 5/22-30(f), amended by P.A.s 100-513 and 100-726, and 105 ILCS 145/27, added by P.A. 101-428.
- [ ] Designate a secure location(s) to store undesignated medication. For UAM, UEIs, and/or UOAs, this is where persons needing these medications are most at risk. 105 ILCS 5/22-30(f)), amended by P.A.s 100-513 and 100-726. For UEIs, this includes but is not limited to, classrooms and lunchrooms. Id. For UAM, this includes but is not limited to, a classroom or the nurse’s office. Id. For UG, this is where it is immediately accessible to a school nurse or delegated care aide. 105 ILCS 145/27, added by P.A. 101-428.
- [ ] Develop a method for maintaining an inventory of UAM, UEIs, UOAs, and UG. The inventory should list the expiration dates of the UAM, UEIs, UOAs, and UG.
- [ ] Identify procedures for a log or other recordkeeping of provisions, or administrations of UAM, UEIs, UOAs, and UG.
- [ ] Maintain a list in each building administrator and/or his or her corresponding school nurse’s office that includes the names of trained personnel who have received a statement of certification pursuant to State law.
- [ ] Develop procedures to implement the prescribed standing protocol for the provision, or administration of UAM, UEIs UOAs, and/or UG, including calling 911 and noting any instructions given by Emergency Management Services (EMS). 105 ILCS 5/22-30 and 23 Ill.Admin.Code §1.540(d). Upon any administration of any epinephrine injector, or opioid antagonist, procedures must include:
  1. Immediate activation of the EMS system. 105 ILCS 5/22-30(f-5). 105 ILCS 5/22-30(f-5), amended by P.A. 100-726, does not address contacting EMS upon the administration of any asthma medication (so asthma medication is excluded from introductory clause above).
  This may mean that the III. General Assembly did not intend for school personnel to notify
EMS when administering a student’s prescribed asthma medication (as opposed to UAM). However, 105 ILCS 5/22-30(j-15) (which requires school personnel who work with students to complete an in-person or online training program on the management of asthma, the prevention of asthma symptoms, and emergency response in the school setting every two years) requires asthma action plans. Some attorneys advise that all asthma action plans mandate an immediate 911 call based upon In re Estate of Stewart, 406 Ill.Dec. 345 (2nd Dist. 2016); In re Estate of Stewart, 412 Ill.Dec. 914 (Ill. 2017) (school district’s appeal denied) (holding that a teacher’s failure to dial 911 immediately upon a student’s asthma attack was willful and wanton conduct, subjecting the school district to liability and barring immunity protections under the Local Governmental and Governmental Employees Tort Immunity Act). Consult the Board attorney about whether to contact EMS when any asthma medication is administered.

2. Notification to the student’s parent, guardian, or emergency contact, if known. Id. 105 ILCS 5/22-30(f-5), amended by P.A. 100-726, does not address contacting the student’s parent, guardian, or emergency contact upon the administration of any asthma medication. See the discussion in number 1, above, about asthma action plans pursuant to 105 ILCS 5/22-30(j-15), and consult the Board attorney.

The following reports and/or notifications by the school nurse (unless otherwise specified) when a(n):

☐ Determine how the District will identify the student populations whose parents/guardians:

1. Have not completed and signed an *SMA Form*, or
2. Have not provided asthma medication, an epinephrine injector, opioid antagonist, and/or glucagon, as applicable to the student, for a student for use at school, even though they have completed the SMA Form.

☐ Determine when the school nurse will provide or administer the UAM, UEIs, UOAs, and/or UG, as applicable, to students.

The school nurse or trained personnel may:

1. Provide an UAM or UEI, as applicable to the situation, that meets the prescription on file in the SMA Form to:
   a. Any student for his or her self-administration only. 105 ILCS 5/22-30(a), amended by P.A. 100-726; 105 ILCS 5/22-30 (b-10)(i), (ii), (v)(amended by P.A. 100-726), and (vi)(amended by P.A. 100-726)); 105 ILCS 5/10-22.21b, amended by P.A. 101-205, eff. 1-1-20.

2. Administer an UEI to any student that the school nurse or trained personnel in good faith believes is having an anaphylactic reaction even though the parent/guardian has not completed and signed an SMA Form or otherwise granted permission to administer the epinephrine injector. 105 ILCS 5/22-30(b-10)(iii). Note: Trained personnel are different than any personnel authorized in 1.b., above. 105 ILCS 5/22-30(a). Trained personnel means any school employees or volunteer personnel who are (a) authorized in Sections 10-22.34, 10-22.34a, and 10-22.34b of the School Code, (b) annually trained online or in person to recognize and respond to anaphylaxis, an opioid overdose, or respiratory distress through a training curriculum developed by the Ill. State Board of Education (ISBE), and (c) submitting proof to their school’s administration that they have completed: (i) the annual training, and (ii) a cardiopulmonary resuscitation (CPR) and automated external defibrillator (AED) certification. 105 ILCS 5/22-30(a) and (g), amended by P.A. 100-726; 23 Ill.Admin.Code §1.540(e). The law does not provide a deadline for ISBE to complete this training curriculum.

3. Administer an UOA to any student that the school nurse or trained personnel in good faith believes is having an opioid overdose even though the parent/guardian has not completed and signed an SMA Form or otherwise granted permission to administer the opioid antagonist. 105 ILCS 5/22-30(b-10)(iv). Note: Trained personnel are different than any personnel authorized. See number 2, directly above. 105 ILCS 5/22-30(a), amended by P.A. 100-726. Trained personnel means any school employees or volunteer personnel who are (a) authorized in 105 ILCS 10-22.34, 10-22.34a, and 10-22.34b, (b) annually trained online or in person to recognize and respond to opioid overdoses through a training curriculum developed by in compliance with the Alcoholism and Other Drug Abuse and Dependency Act, 20 ILCS 301/5-23, and (c) who have submitted proof to their school’s administration that they have completed: (i) the annual training, and (ii) a cardiopulmonary resuscitation (CPR) and automated external defibrillator (AED) certification. 105 ILCS 5/22-30(g); 23 Ill.Admin.Code §1.540(e). The law does not provide a deadline for a training curriculum, but it did require ISBE to develop a heroin and opioid prevention pilot program by Jan. 1, 2017. 105 ILCS 5/22-80.

4. Administer UAM to any student that the school nurse or trained personnel in good faith believes is having respiratory distress even though the parent/guardian has not completed
and signed an *SMA Form* or otherwise granted permission to administer the asthma medication. 105 ILCS 5/22-30(b-10)(vii), amended by P.A. 100-726. See numbers 2 and 3, directly above for discussions between any personnel authorized and trained personnel.

5. Administer UG, as applicable to the situation, for a student with a completed *SMA Form* granting permission for UG use that matches the prescription listed on the form and is also consistent with the student’s diabetes care plan, if the student’s prescribed glucagon is not available on-site or has expired.

☐ Assess how to manage requests from parents/guardians who wish to *opt-out* of the UAM, UEIs, and/or OAs being available to their child.

The School Code does not provide a mechanism for a student or his or her parent/guardian to *opt-out* of the administration of the District’s supply of UAM, UEIs, or UOAs when a nurse and/or trained personnel in good faith professionally believe a student is having an anaphylactic reaction or opioid overdose. While there may be religious, health, or other reasons that a student’s parent/guardian may wish to *opt-out* of the administration of UAM, UEI, or UOA to their child, the law does not provide a way for parents/guardians to do so. Management of this issue should be discussed with the Board Attorney. For additional guidance on this issue, see Board policy 7:275, *Orders to Forgo Life-Sustaining Treatment*.

☐ Determine how to notify all parents/guardians about how UAM, UEIs, and/or UOAs may be provided or administered to students.

If the District maintains a supply of UAM, UEIs, and/or UOAs, it must notify parents/guardians of the protections from liability granted to it and the prescribing physician by 105 ILCS 5/22-30(c) and (c-5), amended by P.A. 100-726. There are two groups of parents/guardians that the District must notify: (1) parents/guardians of students who have previously signed a *SMA Form*, and (2) parents/guardians of all students.

For parents/guardians who have previously signed the *SMA Form*, 105 ILCS 5/22-30(c), amended by P.A. 100-726, requires the District to provide additional notice that the physician(s)/individual(s) with prescriptive authority providing the standing protocol and prescription for the District’s supply of UAM, UEIs, and UOAs are protected from liability, except for willful or wanton conduct arising from the use of UAM, UEI, or UOA regardless of whether authorization was given by the student, parent/guardian, or student’s physician. Discuss with the Board Attorney whether to amend the District’s form(s) to include this language.

For parents/guardians of all students, 105 ILCS 5/22-30(c), requires parents/guardians to be informed that: (1) the District maintains a supply of UAM, UEIs, and/or UOAs, and (2) the District and the prescribing physician(s)/physician assistant(s)/advanced practice registered nurse(s) are protected from liability when the school nurse and/or trained personnel administer UAM, UEI, and/or UOA to any student when these individuals in good faith professionally believe that the student is having an anaphylactic reaction. There are several methods to inform parent/guardians of this information, e.g., receipt of handbook signature, or see Exhibit 7:270-E1, *School Medication Authorization Form*. Discuss with the Board Attorney the method that works best for the District.
